### Notice of Application - Optional DNS Process

**Date of issuance:** August 16, 2023

Island County has received a permit application for the following project.

**Date of notice of application:** August 16, 2023

**Comment due date:** August 30, 2023

**Staff Contact:** Malene Garcia-DeBoard **email:** [m.garcia-deboard@islandcountywa.gov](mailto:m.garcia-deboard@islandcountywa.gov) **phone:** (360) 678-7817

**File Number:** 382/21 SHE II      **Applicant:** Deborah Shibley

**Location:** S6135-00-00130-0, Freeland

**Proposal** – New stormwater outfall with 4 inch HDPE pipe tightline and tee dissipator

Island County has reviewed the proposed project for probable adverse environmental impacts and expects to issue a determination of non-significance (DNS). The optional DNS process established by WAC 197-11-355 is being used. The determination is based on the following findings and conclusions:

Applicant will adhere to best management practices and submitted a SEPA Checklist. The Biological Site Assessment prepared on July 27, 2023 by Davido Consulting Group determined all listed species were given a not likely to adversely affect or no effect determination. Temporary impacts can be reduced by implementing specific mitigation measures.

Island County regulations under ICC 17.02B (Critical Areas), Title XI (Land Development Standards) & other applicable regulations are used to review and condition development to protect critical areas affected by this proposal. The proposal may include mitigation & the project review process may incorporate or require mitigation measures regardless of whether an EIS is required.

**Public, Agency, and Tribal Comments:** Agencies, tribes, and the public are encouraged to review and comment on the proposed project and its probable environmental impacts. Public comments must be received by 4:30 pm on **August 30, 2023**; mail to Island County Planning Department 1 NE 7<sup>th</sup> St, Coupeville, WA 98239; deliver to 1 NE 6<sup>th</sup> St, Coupeville, WA 98239; or 121 N. East Camano Drive, Camano Island; or Fax (360) 679-7306. This may be the only opportunity to comment on the environmental impacts of the proposal.

To request notice of hearings, to receive a copy of the decision, or for information on appeals, contact us at the above address.

The following conditions have been identified that may be used to mitigate the adverse environmental impacts of the proposal:

All construction debris will be collected and not allowed to enter waters of the state. If debris or spill material accidentally enters the waterway, immediate actions will be taken to remove the material, and the proper entities will be notified. Care will be taken in all work to prevent debris, oils, and grease from entering the water. All debris or spill material will be properly disposed of at an approved off-site disposal facility. Should heavy equipment be needed, refueling will be conducted away from the shoreline in accordance with the Washington State Department of Ecology. All equipment will be checked daily for leaks and any necessary repairs will be made prior to commencement of work. Best management practices (BMPs) listed on the site plan should be implemented. These include preserving vegetation, installing sediment controls, and protecting the soil stockpile with plastic covering. Recommendations provided in the geotechnical report should be followed to protect geologically hazardous areas on the subject parcel.

**Required Permits:** Shoreline Exemption Type II

**Required Studies:** Biological Site Assessment, Geotechnical Report, SEPA Checklist
