**File Number:** 352/21 S-VAR II

**Applicant:** Steven Bruce

**Location:** S8330-02-00013-0, Camano Island

**Proposal** – Shoreline variance for after-the-fact replacement of an upper story deck with a roof and replacement deck.

Island County has reviewed the proposed project for probable adverse environmental impacts and expects to issue a determination of non-significance (DNS). The optional DNS process established by WAC 197-11-355 is being used. The determination is based on the following findings and conclusions:

- The applicant will adhere to best management practices and the submitted SEPA Checklist.
- No change in shoreline stabilization measures will occur as a result of this project.
- The proposed replacement roof will be located in the same area as the previous impervious upper story deck. No additional impervious surface will be added to the site.
- There were no new impacts within critical habitat.

Island County regulations under ICC 17.02B (Critical Areas), Title XI (Land Development Standards) & other applicable regulations are used to review and condition development to protect critical areas affected by this proposal. The proposal may include mitigation & the project review process may incorporate or require mitigation measures regardless of whether an EIS is required.

**Public, Agency, and Tribal Comments:** Agencies, tribes, and the public are encouraged to review and comment on the proposed project and its probable environmental impacts. Public comments must be received by 4:30 pm on **November 1, 2023**; mail to Island County Planning Department 1 NE 7<sup>th</sup> St., Coupeville, WA 98239; deliver to 1 NE 6<sup>th</sup> St, Coupeville, WA 98239; or 121 N. East Camano Drive, Camano Island; or Fax (360) 679-7306.

To request notice of hearings, to receive a copy of the decision, or for information on appeals, contact us at the above address.

The following conditions have been identified that may be used to mitigate the adverse environmental impacts of the proposal:

- If Shoreline development is proposed where the marine shoreline buffer does not have “native vegetation throughout,” buffer enhancement is required
- Removal of un-permitted sections of roof overhang shall be required. The applicant also will remove portions of un-permitted impervious pavers to decrease the impervious surface ratio.

**Required Permits:** S-VAR Type-II, Building permit, Flood Development permit

**Required Studies:** SEPA Checklist
